About Vi

## About Vi

The veterinary profession continues to develop, with practitioners and practices demanding ever better clinical outcomes. Answering these increasingly diverse needs, we have the most comprehensive range of instruments, implants and equipment available.

You'll find the tried and trusted alongside the innovative and new, all designed with the highest standards of materials and practicality in mind.

As ever, we're committed to ensuring that every Vi product performs at its best. That's why our team of gurus is always on hand to advise and guide.

Founded by a vet and still inspired by vets, we're continually looking for ways to improve what we offer and happy to hear feedback and ideas from you.

## We're determined that everyone who uses a Vi product can do more and treat better.

## Meet the Vi Gurus

Our comprehensive range of products is coupled with in-depth and real world knowledge of how to use them. So we have a dedicated team of experienced veterinary nurses and surgeons on hand to share their knowledge.

These gurus provide the individual specialist advice that ensures procedures are right and delivered to the highest standard. Along with the professional backup and technical support on all aspects of veterinary surgery that keep busy vets up to date.

This dedicated care continues into the pack and dispatch room where the experienced packers know all our products inside out. Their attention to detail guarantees the products fit the order.

Available worldwide, working with a guru is straightforward. The fact that many vets are already well known to us helps. It means often a simple call or email is enough.

To ask for advice from our guru team, please contact us on [info@vetinst.com](mailto:info@vetinst.com)

## Proudly designed in Sheffield

Sheffield people are known for being very good-humoured and direct. So, with Vi you know you'll get the right advice, delivered with a smile and no-nonsense. Perfect for busy vets.

As a city though, we've transformed. Our industries are now creative, innovative, research based and digital. Sheffield's steel making has evolved into high end, specialist and high quality.

True to our heritage everything we do still stands for quality and durability. But in keeping with the contemporary fresh-thinking city Sheffield is today, with Vi you can also add inventive and proud.

## Local character, global view

Henry Schein understands the advantages of a global reach but values the individuality of a local specialist. The advantage we now have is to offer both.

Henry Schein is the world's largest provider of health care products and services to dental, animal health and medical practitioners. Their comprehensive knowledge of the supply and sales chain means their support is practical as well as entrepreneurial.

Together we share an ethos to deliver the best product at the right time, every time.

## Vi Design Lab

Either collaborating with globally respected partners or changing the game on our own, we were the first to create instruments and implants specifically for vets.

And we've been first to make a difference ever since ...

The veterinary profession continues to develop, with practitioners and practices demanding ever better clinical outcomes.

Answering these increasingly diverse needs our Vi design team continue to work alongside leading veterinary surgeons to develop the most comprehensive range of instruments, implants and equipment available.

If you have a challenge or project that you would like to talk to the design team about contact a Vi Guru to see how we can help [guru@vi.vet](mailto:guru@vi.vet)

Hybrid Pancarpal, Hybrid Pantarsal and Partial Tarsal arthrodesis plates

By inventing, developing and perfecting these plates, we made this procedure simpler and safer. They're another first for Vi and a better outcome for vets.

Supracondylar plates

Working closely with Mark Glyde we developed the original plates which made distal femur fracture repair possible where otherwise it might not have been. We have since extended the range for these invaluable plates to cover more patients.

2.4mm screws and plates

Typical of Vi's attention to detail, this is an excellent development for cats and small dogs where the jump from 2.0mm to 2.7mm plates and screws is too large.

Stifle distractors

As a response to the difficulty in examining the medial meniscus, Vi developed the stifle distractor. Simple and practical, it opens the stifle to enable the surgeon to see and manage meniscal injuries.

## STARDRIVE

Diameters 2.0, 2.4, 2.7 and 3.5mm

**Problem**

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Ut wisi enim ad minim veniam, quis nostrud exerci tation ullamcorper suscipit lobortis

**Solution**

nisl ut aliquip ex ea commodo consequat. Duis autem vel eum irure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan et iusto odio dignissim qui blandit praesent luptatum zzril delenit augue dui dolore te feugiat nulla facilis.

STAR DRIVE  
Market leading performance in cantilever bending and screw push-out (Baroncelli et al, 2013)

100% AO/Synthes compatible Star Drive Locking screws from Vi
